Research reports

Direct cell–cell contact required for neurotrophic effect of chromaffin cells on neural progenitor cells
M.A. Schumm, D.A. Castellanos, B.R. Frydel and J. Sagen (USA) 1

Dexamethasone exposure during the neonatal period alters ORL1 mRNA expression in the hypothalamic paraventricular nucleus and hippocampus of the adult rat
C.R. Neal Jr., B.L. VanderBeek, D.M. Vázquez and S.J. Watson Jr. (USA) 15

Cell death in the nasal septum of normal and naris-occluded rats
P. Brunjes and D.C. Shurling (USA) 25

Manipulating transmitter release at the neuromuscular junction of neonatal rats alters the expression of ChAT and GAP-43 in motoneurons
P.S. Sharp, J. Dekkers, J.R.T. Dick and L. Greensmith (UK) 29

Changes in the postnatal development on nitric oxide system induced by serotonin depletion
P. Tagliaferro, A.J. Ramos, J.J. Lopez-Costa, E.M. López and A. Brusco (Argentina) 39

Spatial and temporal patterns of expression of Noggin and BMP4 in embryonic and postnatal rat hippocampus
X. Fan, H. Xu, W. Cai, Z. Yang and J. Zhang (PR China) 51

The sensitivity of sodium channels in immature and mature rat CA1 neurones to the local anaesthetics procaine and lidocaine
M.A. Ribeiro and P.F. Costa (Portugal) 59

Quantitative features of the nucleus rotundus in the brain of pre- and post-hatch chicks
N. Con, A. Canbilen, P.M. Bradley and S. Kaplan (Turkey, UK) 71

p21^{ras} Activation following hypoxia–ischemia in the newborn rat brain is dependent on nitric oxide synthase activity but p21^{ras} does not contribute to neurologic injury
M.S. Wainwright, L.A. Brennan, M.L. Dizon and S.M. Black (USA) 79

(contents continued)

Ontogenesis and regulation of cholesterol metabolism in the central nervous system of the mouse
G. Quan, C. Xie, J.M. Dietschy and S.D. Turley (USA) 87
Spatiotemporal patterns of gene expression during fetal monkey brain development
D.E. Redmond Jr., J.-l. Zhao, J.D. Randall, A.C. Eklund, L.O.V. Eusebi, R.H. Roth, S.R. Gullans and R.V. Jensen (USA) 99
Expression of the guanine nucleotide exchange factor, *mr-gef*, is regulated during the differentiation of specific subsets of telencephalic neurons
A. Bithell, J. Alberta, F. Hornby, C.D. Stiles and B.P. Williams (UK, USA) 107
Epigenetic factors differentially influence postnatal maturation of serotonin (5-HT) innervation in cerebral cortex of gerbils: interaction of rearing conditions and early methamphetamine challenge
J. Neddens, F. Bagorda, A. Busche, S. Horstmann, G.H. Moll, R.R. Dawirs and G. Teuchert-Noodt (Germany) 119

Short communication
NADPH-diaphorase positivity in the rostral migratory stream of the developing rat
E. Račeková, J. Orendáčová, M. Martončíková and I. Vanický (Slovak Republic) 131
